

AI SOFTWARE DEVELOPMENT INTERNSHIP

EMAN MASOOD (BSSE)

Week 3: SQL Server & Entity Framework Core • API/Angular
Integration Git & GitHub Workflow • AI & Python Foundations

PART F — GIT & GITHUB WORKFLOW (NEW THIS WEEK)

Practice Tasks

Output:

The screenshot shows the GitHub interface for creating a pull request. The browser address bar displays the URL: `https://github.com/emanmasood0099-em/library-internship-project/compare/feature/git-github-workflow?expand=1`. The repository name is `emanmasood0099-em / library-internship-project`. The page title is "Open a pull request". Below the title, there is a message: "Create a new pull request by comparing changes across two branches. If you need to, you can also [compare across forks](#). [Learn more about diff comparisons here](#)."

The "base" branch is set to `main` and the "compare" branch is `feature/git-github-workflow`. A green checkmark indicates "Able to merge. These branches can be automatically merged."

The "Add a title" section has a text input field with the value `docs: document Git workflow`. The "Add a description" section has a text area with the placeholder text "Add your description here...". The "Write" tab is selected, and the "Preview" tab is also visible. The "Markdown is supported" checkbox is checked. The "Paste, drop, or click to add files" button is visible.

On the right side, there are several sections: "Reviewers" (No reviews), "Assignees" (No one—[assign yourself](#)), "Labels" (None yet), "Projects" (None yet), "Milestone" (No milestone), and "Development" (Use [Closing keywords](#) in the description to automatically close issues). There is also a "Helpful resources" section with a link to [GitHub Community Guidelines](#).

At the bottom, there is a green button labeled "Create pull request".

Open a pull request

Create a new pull request by comparing changes across two branches. If you need to, you can also [compare across forks](#). [Learn more about diff comparisons here](#).

This screenshot shows the same GitHub interface as the previous one, but with the description field filled out. The "base" branch is `main` and the "compare" branch is `feature/git-github-workflow`. The "Able to merge" status is still present.

The "Add a title" section has the same text: `docs: document Git workflow`. The "Add a description" section now contains the following text: "Updated the README to document the Git workflow used for this project." and "The change demonstrates making documentation updates on a feature branch before merging them into main."

The "Write" tab is selected, and the "Preview" tab is also visible. The "Markdown is supported" checkbox is checked. The "Paste, drop, or click to add files" button is visible.

On the right side, the sections are the same as in the previous screenshot: "Reviewers" (No reviews), "Assignees" (No one—[assign yourself](#)), "Labels" (None yet), "Projects" (None yet), "Milestone" (No milestone), and "Development" (Use [Closing keywords](#) in the description to automatically close issues). There is also a "Helpful resources" section with a link to [GitHub Community Guidelines](#).

At the bottom, there is a green button labeled "Create pull request".

Conversation 0 Commits 1 Checks 0 Files changed 1 +6

emanmasood0099-em commented 4 minutes ago Owner

Updated the README to document the Git workflow used for this project.

The change demonstrates making documentation updates on a feature branch before merging them into main.

docs: document Git workflow @6ed5b3

emanmasood0099-em merged commit e22afaf into main now Revert

Pull request successfully merged and closed Delete branch

You're all set — the `feature/git-github-workflow` branch can be safely deleted.
